

MEETING REPORT

Team Name: MDS **Date of Meeting:** 07/04/2021
Start Time: 19:30 **End Time:** 21:00 **Meeting Location:** Google Meet
Moderator: Erisa Kazaferi **Recorder:** Erisa Kazaferi

Other Members Present: Xhoana Qosja
Fane Veizi
Elvis Ruçi
Alban Salla
Henri Tusku

Members Absent: None

Topics Discussed:

- The first topic of discussion was our new project idea. After discussing with the professor, we decided to work on a Supermarket Management System and Delivery system.
- We also discussed a more generalized idea of this project where we can make it to fit most businesses and have them personalize it to their needs.
- Secondly, we went over features that we are going to implement. We decided on having a log in system with users that are going to have different accesses. The admin will be able to create new users and manage their access. Admin will also manage the stock and inventory of products, clients that log in as a separate user and can only view what products are available and the order and delivery interface.
- The third topic was the interfaces we are planning to implement. These include: register/log in page, inventory, procurement and stock, sales and statistics, deliveries and orders.

Decisions Made:

- We decided to continue working with java, Spring web framework.
- Project's features.

We decided on a team name: MDS meaning Management and Delivery System.

Tasks Assigned:

- All members: Read and look into Spring framework
- Erisa Kazaferi: Talk with potential client about what features are more needed and about a list of products.

Time, Place, and Agenda for Next Meeting: 13/04/2021 18:30 Google Meet
